

# ETC 2 Year College Calculator

*Smart Decisions; Built Upon Reliable Data*

At Educate To Career, we view public 2 year colleges as an excellent value in higher education. We developed the 2 Year College Calculator as a tool to enable aspiring high school graduates to plan their college to career track.

This program is provided as a free service by Educate To Career- the leader in educational attainment to career outcome data.

## 2 Year Public Colleges provide:

- A practical education with real career training
- An education which trains students to become valuable to local employers
- An affordable pathway to a 4 year college degree

## What the Program offers:

- A listing of 200 occupations that graduates from 2 year colleges achieve
- The majors that lead to occupations with good earnings
- The salary differential between a high school graduate and those who have attained a 2 year degree
- A localized listing of all public 2 year colleges

## Career Counselor information:

- This program has been designed for you to use with your students
- Over 1,000 2 year, public colleges are included in our listings
- The program enables you, with your student to select an occupation and region where they anticipate working. The program provides salary advantages of a 2 year degree, the major they should consider studying, and a listing of 2 year colleges in the region selected.
